Age: 6

I am made out of recycled stainless steel. It took 6 months for me to be made. I stand 2.5 meters tall and weigh 5 tonnes. I also have laser eyes. I have been programmed to protect the good children of William Gilpin School. I am here watching over you for the next few weeks.

Running Club

report

On Friday 2nd December all the cross country team (who have trained very hard) went to Beaulieu cluster cross country event. As a school we came 4th but some runners came in good positions, Jason Walbanke came 4th in his race, Leonie Dennett 14th, Eve Carrathers came 15th followed by Chantelle Monks, then Ellen Smith and lots after her.

Although we came last, everyone still had a great time taking part in all the races. Lastly, we need to say an extra special thank you to Val Stesto who has trained us for the past term. Thanks Val, for everything. Without you we wouldn't have done aswell we did! It was such a great day out and we look forward to doing it again.
